# DECODE

DEvelop COmpetences  
in Digital Era

## PROJECT

**DECODE (Develop Competences in Digital Era) is an Erasmus+ funded project** which is exploring the skills need facing education professionals as technology becomes more common in the classroom.

The project's main objective is to contribute to the improvement of schools' digitisation processes. As well as several research reports, the project will develop a number of training resources for education professionals.

The DECODE Consortium is composed of **seven partners** from five different European countries: **Italy, Finland, Romania, Spain, and United Kingdom.**

## AUDIENCE

### Main target groups

SCHOOL LEADERS

TEACHERS

DECISION MAKERS
