

DECODE FINAL CONFERENCE: ABSTRACT

RELATORE	<i>Mihai Iacob</i> , researcher Institute of Educational Sciences (Romania)
TITOLO	Integrating digital technology in the teaching-learning process
ABSTRACT	<p>Considerable efforts have been expended at national and EU level in order to support educational professionals in integrating digital technology in their day to day work. The presentation will focus on three elements:</p> <ol style="list-style-type: none"> 1) the EU context, as defined through policies and studies; 2) the practices within the 5 partner countries of the DECODE project; 3) practical suggestions for integrating and monitoring digital technologies in the teaching-learning process. <p>The overall aim is to pinpoint resources and facilitate access to relevant information. The presentation will try to highlight elements which could support school leaders to update and improve practices within their organisation.</p>
