TITOLO	Develop Competences in Digital Era – Finnish Pilot
ABSTRACT	<p>Finnish pilot course was called At Home InDigital Time and it was carried out between November 2018 and February 2019. The course included 6 modules: 1) Digital me and netiquette, 2) Making digital material, 3) Online communities and communication, 4) Swarm intelligence and team learning, 5) Feedback and online evaluation and 6) English learning materials.</p> <p>47 students registered and 34 signed in to the course. In the end 15 students completed all the assignments for the course. Module 1 motivated students the most: it gathered most participations among students and returned assignments were produced very creatively. The most challenging part of the course appeared to be online team work: between modules 3 and 4 it was difficult to maintain students motivation and many gave up with the course.</p>
